APCO

SPECIFICATION GUIDE

Product Description

Extruded Aluminium Bars in five sizes display information laterally on one or both sides. Bars are conveniently changed or rearranged by removing security caps and lifting each bar upward and out of the post pocket. Larger bars and header panels are easily created with the SignPanel feature.

Basic Configurations

SignBar with 50mm Posts

SignBar with 100mm Posts

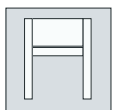

SignBar Wall Mount

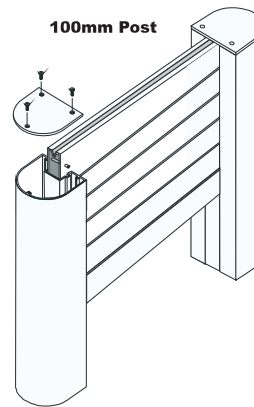

SignBar 90 Corner

SignBar Multi-Sided Pylon

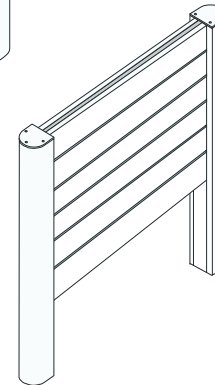

SignBar with SignPanel Header

100mm Post

Wall Mount

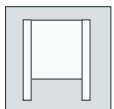

50mm Post

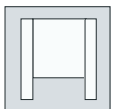

Product Description

A unique outer frame extrusion is clad with 1.5mm aluminium faces to create larger sizes. Panels are 28mm thick and incorporate an edge detail that interlinks with both bars and SignPanel. Panels slide within the Post or Wall Channel pocket.

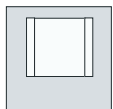

Basic Configurations

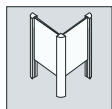

SignPanel with 50mm Posts

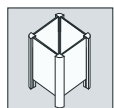

SignPanel with 100mm Posts

50mm Post with SignBar / Panel

40mm Wall Channel with SignBar / Panel

Product Description

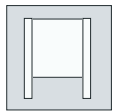

A unique filler extrusion allows for the use of virtually any 6mm thick panel material such as aluminium or acrylic etc.

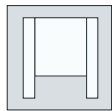

Product Description

A unique outer frame extrusion is clad with 1.5mm aluminium faces to create larger sizes. Panels are 50mm or 100mm width to create a "Flush Face" appearance when used with 50mm or 100mm posts.
